Information Retrieval

Matthias Hagen   Martin Potthast   Benno Stein

Contents

Objectives

- ❏ Understand information systems, and search engines in particular

- ❏ Acquire solid background on the theory of retrieval models

- ❏ Implement and apply retrieval algorithms in practice

- ❏ Comprehend practical considerations, enabling comparative evaluation

- ❏ Being able to educate oneself

Related Fields

1. Statistics   [paradigms, models]

2. Mathematics

3. Data Mining   [methods, algorithms]

4. Machine Learning

5. Knowledge Processing

6. Search Engines   [applications]

7. Business Intelligence

8. Decision Support Systems
